

AUTOMATIC VOLTAGE REGULATOR

**2 YEARS
WARRANTY**

SE - AVR1200 - 8

Spartan Electric's voltage regulator is a reliable and economical solution to provide the protection your equipment needs.

In addition to operating as a surge suppressor, it automatically compensates for transient fluctuations, voltage losses and other irregularities in the supply line.

Designed to work in the most rigorous conditions, becoming the perfect option to optimize the performance of your units.

- Voltage regulation function that according to constant monitoring automatically adjusts the output voltage.
- Built-in circuit breaker for easy overload recovery.
- Protection for all your peripherals.
- LED indicators that show the status of the equipment, as well as the voltage and overload levels.
- Internet, DSL, Fax / Modem protection.
- Network and telephone line protection.
- Compact design.

APPLICATIONS

**Automatically corrects sudden fluctuations
maintaining a uniform supply of energy**

MODEL	FEATURES	SE-AVR1200-8
INPUT	Capacity	1200VA/600W
	Voltage range	96 - 148VAC
	Frequency range	60Hz
	Joules	320J
	AC plug style	NEMA 5-15P
OUTPUT	Voltage range	120 ± 6% VAC
	Frequency range	60Hz
	Network protection	RJ-45
	Phone/modem protection	RJ-11
	Outlet type	8 NEMA 5-15R
GENERAL	Color	Black
